

ČIRO TRAIL

The narrow-gauge railway in the Herzegovina / Dubrovnik region was built at the beginning of the 20th century and connected Mostar with Dubrovnik and Konavle in Croatia. The first "Čiro" passed along this line on July 15, 1901. The idea to revitalize this line as a bicycle path was created jointly, on both sides of the border, with the aim of preserving this line as a historical heritage and developing a new tourist offer.

PLACES TO VISIT
